PME Elective Series - Reports

Overview

• As with all our elective series classes this remote session will cover a specific task, tool or use case as it pertains to the PME platform.   Reports displays pre-defined report templates that can be used to view and analysis historical data from the system. These capabilities as well the pertinent use cases of the Reports tool will not only be covered with presentation and discussion but also practiced; with a hands on lab session for the attendees.

Duration and format

• 2 hours
• A remote, instructor led session that is comprised of discussion, real time polling and hands on labs

Who should attend

This elective course is a overview of the Reports tool and its possible use cases. Attendees that may find it of interest:
