## EcoStruxure™ Power Operation (EPO)

### - Operation – (1-Day)

#### Description:

This 1-Day instructor led course is designed as an introduction to the capabilities of EcoStruxure™ Power Operation (EPO). Students will follow along in their own system as the instructor provides an overview of the EPO architecture, software, and hardware components. Focus will be given to the WebHMI which includes real-time Diagrams, Alarms, and Trends. Reports and Dashboards will be built using the historical data in the Advanced Reports and Dashboards module.

#### Audience:

Owners or operators of an EcoStruxure™ Power Operation system.

#### Course Details

##### Duration:

- 1-Days

##### Delivery Type:

- Onsite Classroom (CR)
- Virtual Instructor Led (VILT)

##### Course Reference #:

- 3000EPO1DOP400

##### Product Numbers:

- Reference Table A

#### Prerequisites:

- None

#### Students will be provided:

- Operating Manuals or training material (if available) by request only
- Demo software or equipment is not included but can be requested for purchase during the quotation process

#### Objectives:

After completion of this training course, participants will be able to:

- Understand basic power fundamentals, terminology, and utility billing
- Understand what the EPO software is, how it works, and its capabilities
- Navigate diagrams
- Create and manage trends
- View, acknowledge, and disable alarms
- Create custom alarm views
- Build custom dashboard views of historical data
- Run a variety of historical reports
- Deliver a report automatically with a subscription

#### Registration

- Contact [pmu@se.com](mailto:pmu@se.com) to begin this process.
