

EcoStruxure™ Power Monitoring Expert (PME)

Operator Training (PMEOT100)

Description:

This 3-day instructor-led course focuses on providing an introduction into the PME software. Through a series of presentations and hands-on lab exercises, students will learn the general capabilities of the software, with a focus on day-to-day operational tasks within the web application. Dashboards, Trends, Alarms, Reports, Device and User Management. Students will also receive an overview of basic EPMS and power fundamental topics including terminology, utility billing and meter selection and basic communications.

Audience:

This course is designed as an entry level training and recommended for anyone that is or will become involved with using this software as part of their day-to-day role.
